

# Sires of Sires

For the 50 leading sires of 2010 by money earned as of October 15, the following statistics represent the success those stallions have had through their sons at stud. The sons must be alive and must have sired the earners of at least \$50,000 in 2010 for their sires to be on the list; the statistics shown for those sons are *lifetime* figures. Leading sires that do not have sons that meet the criteria are not listed.
